SONJA MARIE

Tapping into LA's diverse and talented art community, the Hen House has released yet another compilation. The **HenHouse Studios Anthology 3** takes you on a musical journey through spoken word, R-n-B, funk, reggae, soul and more. Harlan's ability to filter through LA's massive music scene to find gems, such as these, make this CD a valuable item to be had. Some of the highlights found on Anthology 3 are:

Blending jazz, hip-hop, poetry, R-n-B, and funky melody lines, Sonja Marie has become an icon in the LA music scene. Her sensual lyrics and captivating performances have allowed her the opportunity to write and perform on the multi-platinum and Grammy nominated soundtrack "Waiting to Exhale". Sonja Marie can also be heard on Cody ChesnuTT's latest release, Headphone Masterpiece.

LOVE BALM

This collaboration of talents blends 2 of LA's finest creatives, Lonnie Marshall of Weapon of Choice and Gabrielle Lang. Lonnie has been quoted by Flea from the Chili Peppers "As one of the Funkiest People Alive." He has also performed at the Grammys alongside the Red Hot Chili Peppers and George Clinton. Gabrielle Lang has studied Sitar both in India and North America with such Masters as: Ali Akbar Kahn, Rajeez Taranath, and Partha Chatterjee. Both Lonnie and Gabby play in various bands together, one of which is the notorious 70 piece hip hop orchestra - DAKAH, as well as with Les Claypool of Primus.

DR. MADD VIBE

aka: Angelo Moore. Playing every instrument on this cut, is the front man in the legendary band, Fishbone. Without hesitation we can easily say this extremely talented "Dr", with his amazing voice and creative ideas, has a way of taking all of his "madd" ideas and turning them straight into Vibe.

MAX

"Max is a lot like Madonna - only she can sing." (Chris Isaak) Max is a wealth of talents. From Singing to Comedy, she's captured audiences all across Australia, Europe and North America. In 1995 Max signed to Warner Music. Her '95 single "coma" was voted top ten nationally by Australia's JJJ Network, while 6 months later her record "A Million Year Girl" went Platinum receiving 8 award nominations.

OLD SOL

This 5 piece wurlitzer driven soul folk band is fronted by lead vocalist and song writer, Megan Jacobs, who has recorded and played with everyone from Andre Cymone (Prince and the Revolution) to members of Ani DeFranco and Macy Gray's Bands.

UPSTREAM

This band includes 3 sons of the late Ras Shorty I. They have opened for such acts as: REM, Dave Matthews Band, The Wallers, Cherry Poppin' Daddies, Wailing Souls and Jimmy Buffet. The track selected for the Hen House Anthology 3 was co-written by the infamous Reggae Star, Sister Carol.

Carving out a niche for independent artists, the Hen House is a valuable asset to Los Angeles based musicians. With your finger on the pulse of LA's rising artists, you too can be "tapped in".
